S TRANSFORMING LIVES

650

The number of
children living in
17 local children's
homes.

One Sky
FOUNDATION

SUPPORTING VULNERABLE CHILDREN AND THEIR FAMILY

150

Children taught by 6 teachers
paid by One Sky.

2014

203 children helped to buy their school uniform

87 children helped to register in Thai Schools

111 children helped with transport costs to get to school

09/09/2014

1. Child safety and Child rights

9 children removed from extreme danger in the last 10 months

A photograph showing the interior of a truck bed, densely packed with supplies. In the background, several cardboard boxes are stacked, featuring a logo with a red house and a blue truck. The middle ground is dominated by several large, full white plastic bags. In the foreground, there are smaller clear plastic bags containing various items, including what appears to be a bottle of orange liquid. The truck bed is dark-colored, and a window on the right side shows a glimpse of the outside world with a small potted plant on the sill.

2. Family Support

3. Counseling

4. Community Prevention Activity

5. Learning Disability Activity

So far we have worked with 87 family support cases involving 219 children and 167 adults.

But not everything is sad!

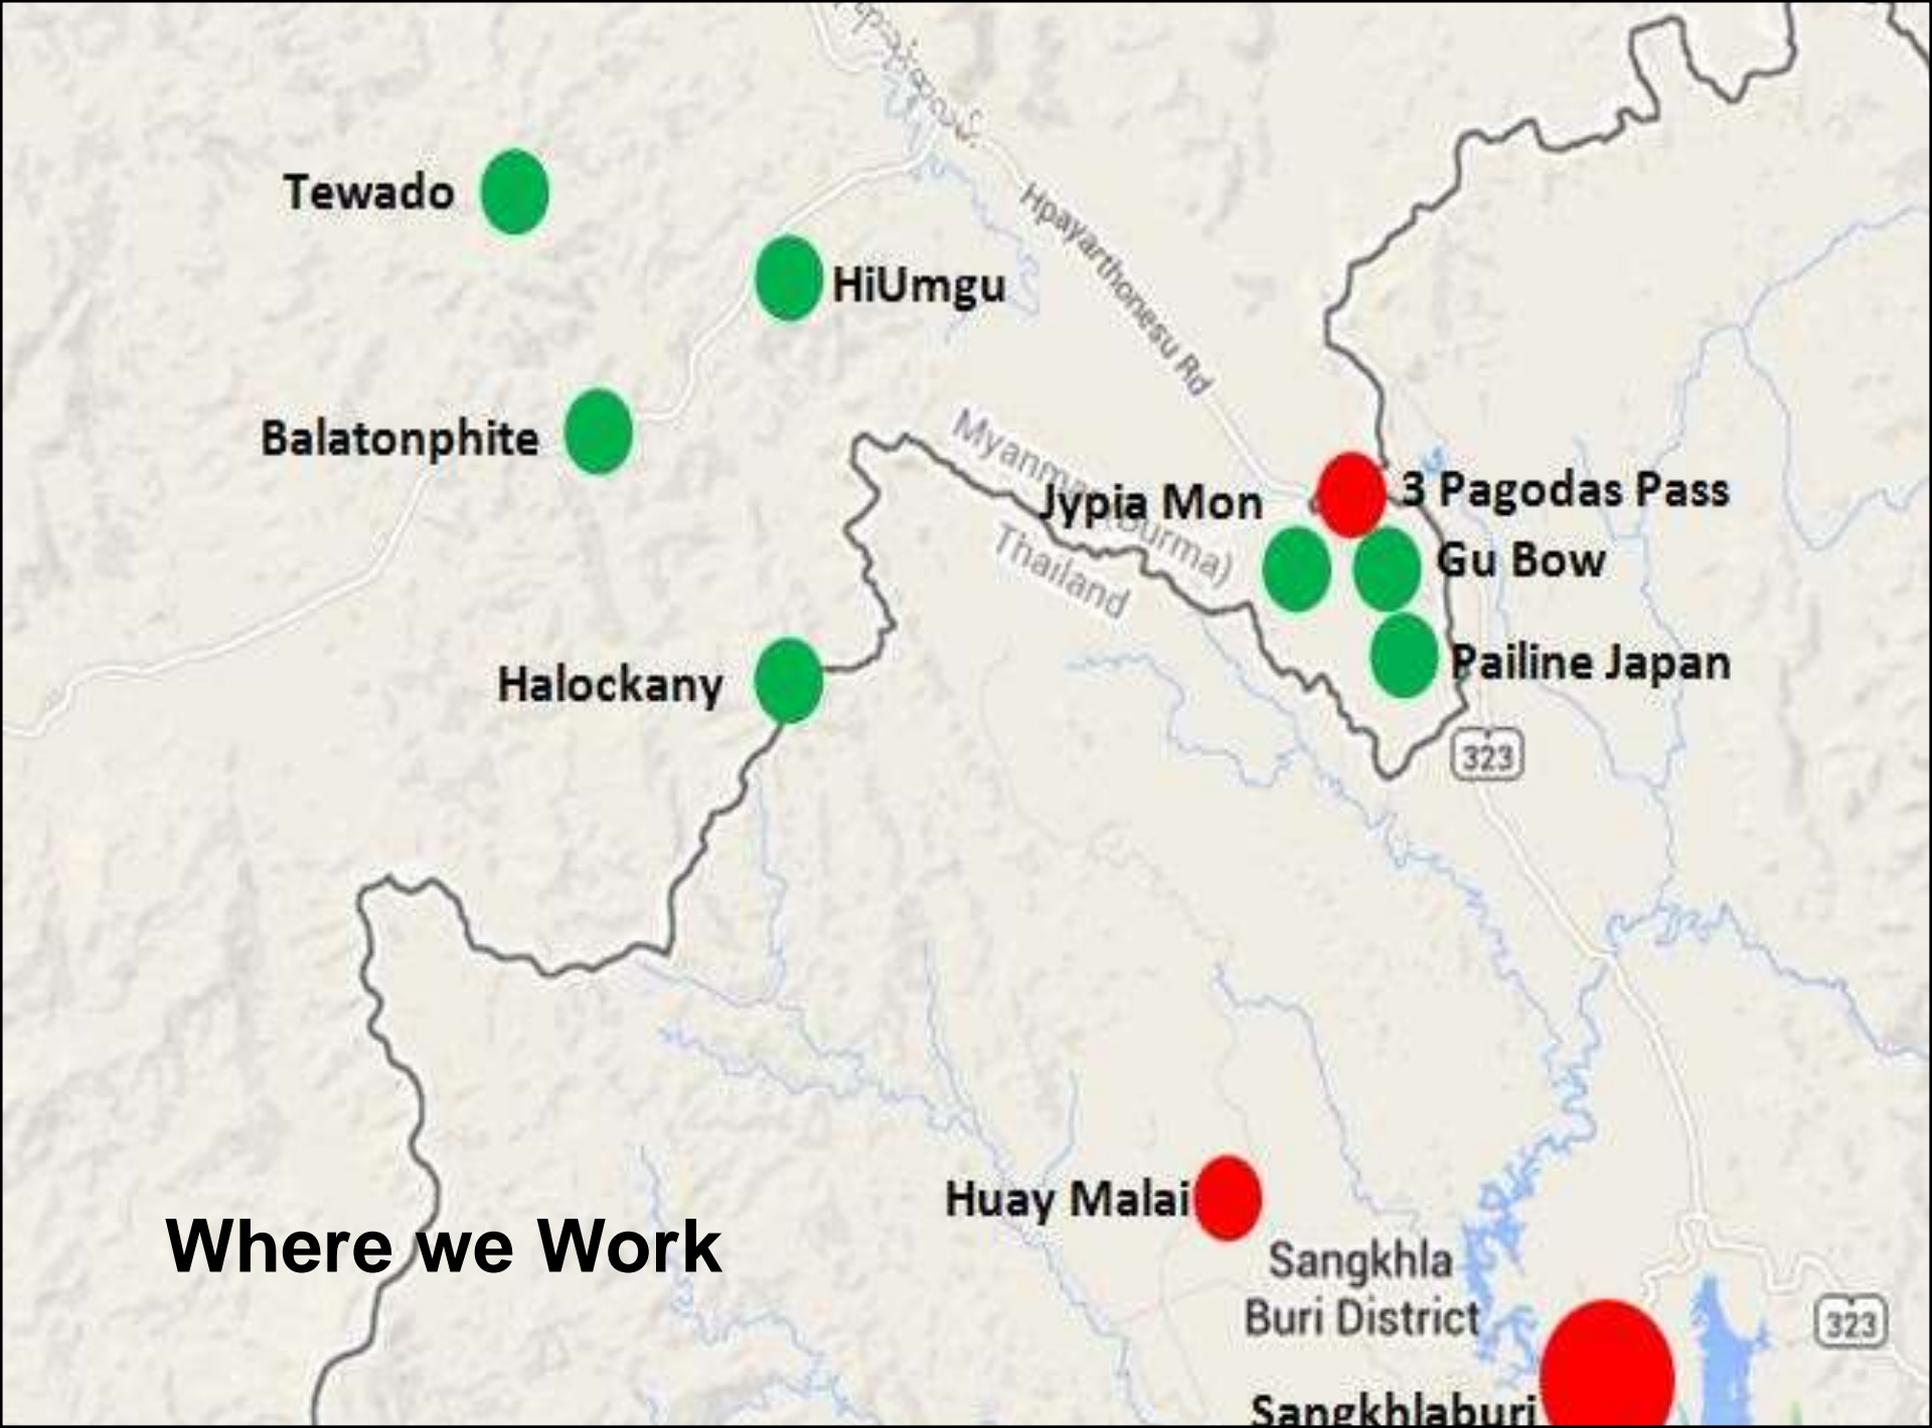

The Border Health Initiative (BHI) was started in 2008 after MSF France left the area.

Many people still needed help to have basic health care and BHI formed to meet this need.

Activity summary

- Working with more than 800 people each month
- Supporting more than 1500 children in Mon, Burmese and Karen Schools
- Covering a population area of more than 60,000 people
- Referral support for emergency cases from other areas, when needed

The Team

2014 Staff Structure

The future

The road from Phayathongzou to Thampuziat is undergoing major development. This is bringing huge changes to the area and it is expected that the border will open fully very soon.

BHI is currently going through the registration process to become a legally recognised foundation in Myanmar. These are exciting times and there is huge potential to reach more people in need of help.

បរិច្ឆេទសុខភាព
Border Health Initiative

5000 brooms made each month

16 families (10 single mothers) able to work for regular income

Thank you
